

- Professor of Solids and Structural Mechanics at the University of Pavia, Italy,
- Research associate at IMATI-CNR (Institute for Applied Mathematics and Informatic Technologies "E. Magenes") in Pavia

Major research interests:

- development of numerical schemes
- development of simulation tools to support medical decision
- more recently everything that is related to additive manufacturing.

Accomplishments:

- Euler Medal by ECCOMAS in 2016
- Fellow Award by IACM since 2012
- Member of the Italian National Academy of Science since 2018
- President of ECCOMAS since 2021
