

SEFI ANNUAL CONFERENCE  
19-22 September 2022  
BARCELONA

## **ANNOUNCEMENT - 18 MARCH 2022**

### **Extension of deadline and DOI for all papers accepted**

We have the pleasure to announce two important pieces of information for researchers and practitioners in Engineering Education that wish to contribute to SEFI2022.

**1st announcement:** Extension for Abstract submission, as follows:  
Abstract submission 19.03.22 – extended 30.03.22

**2nd announcement:** DOI for all papers accepted

In addition to the current ISBN, this year we are going to include a Digital Object Identifier (DOI) for every single accepted paper to this year's conference. This is an important step forward, having a DOI is a great advantage for researchers, and we believe it will be appreciated.

We expect a successful exchange at the conference in Barcelona next September. Thank you all for your participation.

*The Local Organising Committee, in agreement with SEFI*
