

WCCM-ECCOMAS 2026 App

Installation guide for iPhone, iPad and Android

App URL: <https://app.wccm-eccomas2026.org/>

This app is a PWA. It is installed from the browser, not from the App Store or Google Play.

What is a PWA?

PWA stands for Progressive Web App. It is a website that can be installed on your phone and opened from the Home Screen, so it feels like a regular app without needing the App Store or Google Play.

For congress participants, this means:

- **Quick access** - open the congress app directly from your Home Screen.
- **Always current** - program updates, venues, news and personal data can synchronize through the web.
- **No store account required** - installation is done from Safari or Chrome in less than a minute.
- **App-like experience** - the PWA opens in its own window and keeps the congress tools close at hand.

Note: Some features, such as updates and favorite synchronization, require an internet connection.

Before you start

Open this URL on your phone: <https://app.wccm-eccomas2026.org/>

Use Safari on iPhone or iPad. Use Chrome on Android. Installation normally takes less than one minute.

Install on iPhone or iPad

Use Safari for the best installation experience on iOS and iPadOS.

1. **Open Safari** - go to <https://app.wccm-eccomas2026.org/>.
2. **Tap Share** - tap the Share icon in the Safari toolbar.
3. **Choose Add to Home Screen** - scroll the share sheet if the option is not immediately visible.
4. **Tap Add** - confirm the name and tap Add. The WCCM-ECCOMAS 2026 app icon will appear on your Home Screen.

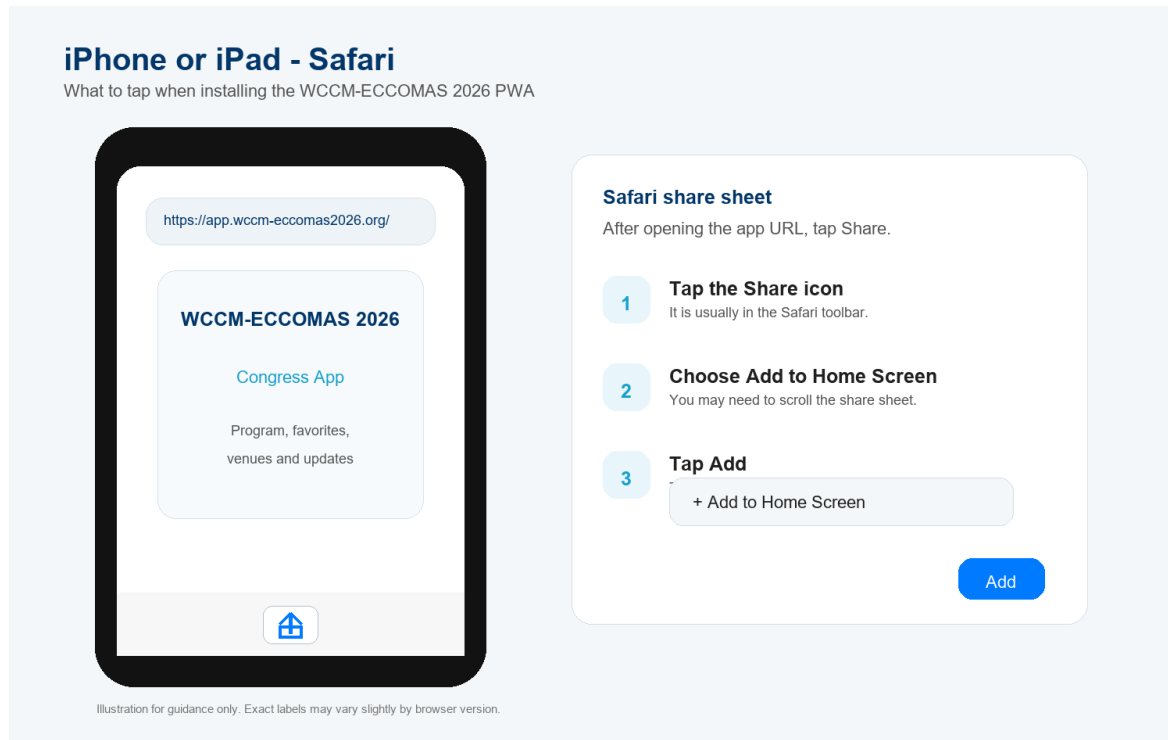

Figure 1. Safari: tap Share, then Add to Home Screen, then Add.

Install on Android

Use Chrome for the most consistent Android installation flow.

1. **Open Chrome** - go to <https://app.wccm-eccomas2026.org/>.
2. **Open the menu** - tap the three-dot menu in the top-right corner.
3. **Choose Add to Home screen** - on some devices this may appear as Install app.
4. **Confirm** - tap Add or Install. The WCCM-ECCOMAS 2026 app icon will appear on your Home screen.

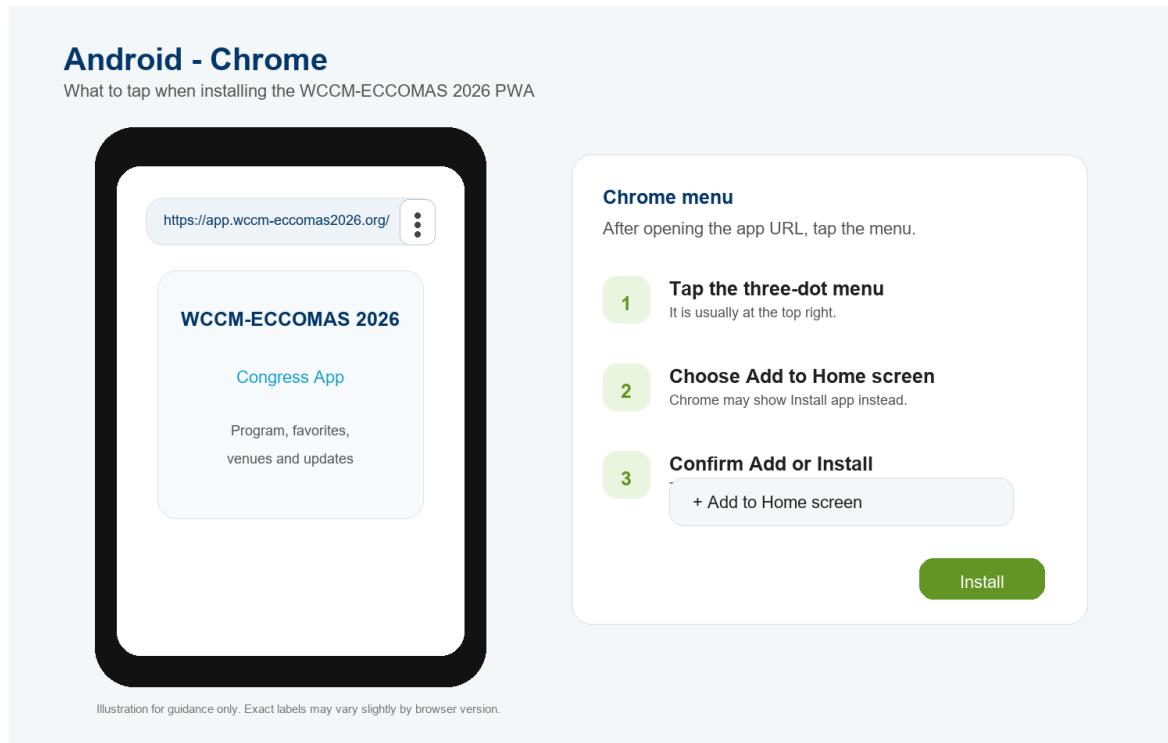

Figure 2. Chrome: tap the menu, then Add to Home screen or Install app.

After installation

1. **Open the app icon** - launch the app from your Home Screen like any other app.
2. **Sign in if needed** - use your congress account to access personal features such as favorites and My Congress.
3. **Allow updates** - keep an internet connection available so the program and favorites can synchronize.

Troubleshooting

- **I do not see Add to Home Screen on iPhone:** Make sure you are using Safari, not an in-app browser or another browser.
- **I do not see Add to Home screen on Android:** Use Chrome and open the three-dot menu. The label may also be Install app.
- **The app opens in the browser instead of as an app:** Remove any old shortcut and install it again from Safari or Chrome.
- **The program or favorites look out of date:** Open Profile in the app and tap Sync Program.
